OFFERR Project

Objectives

- Support SNETP Association in facilitating R&D experts' access to vital nuclear science infrastructures.
- Serve as a conduit for Euratom program grants to User Facilities for their services and to successful research teams.
- €7.2 million budget allocated for funding new experiments.
- Project duration from September 2022 to August 2026 with a total budget of €9 million.
- Involvement of 17 partners in the initiative.
- Scan the QR code for more information!

The OFFERR Call

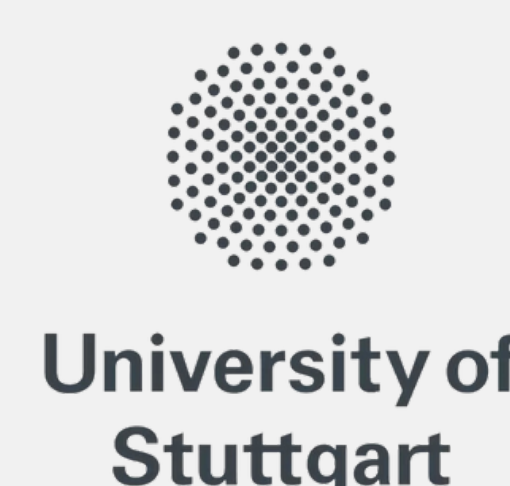

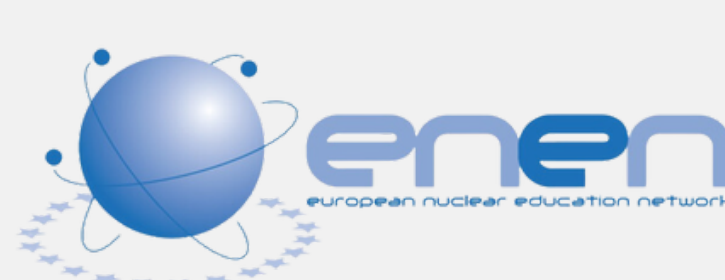

How to secure funding through the OFFERR call ?

- Identify your project as either FAST TRACK (<50 k€) or COMPLEX PROJECTS (> 50 k€).
- Funds are available to cover costs such as infrastructure fees, training, consumables, and travel expenses.
- Utilize the OFFERR Infrastructure catalogue, which offers access to over 230 facilities updated every 6 months.
- Choose from designated areas including
 - Light Water Reactor sustainability,
 - Advanced fission reactor concepts,
 - Nuclear science applications,
 - Advanced nuclear fuels,
 - Innovation in nuclear instrumentation,
 - Radioprotection and nuclear medicine.

- As already more than 39 projects, craft a strong proposal outlining objectives, methodology, and expected outcomes aligned with the OFFERR program goals.

Partners

OFFERR

This project has received funding from Horizon Europe – Euratom programme under grant agreement No 101060008.
