What is the Project Portfolio?

The **SNETP Project Portfolio** is a collection of 90+ research and innovation projects funded by **Euratom** and aligned with the SNETP (Sustainable Nuclear Energy Technology Platform) mission to support research, development and innovation in nuclear energy to ensure a safe, competitive and sustainable future for nuclear power in Europe.

What is the SNETP Label?

The **SNETP Label** is a recognition awarded to projects that meet specific **strategic criteria**. While the portfolio includes all projects associated with SNETP, the labelled projects are those officially recognized for their alignment with **SNETP's long-term vision.**

- In Q2 2025, **54 projects have been labelled** (38 ongoing, 16 completed).
- The label signifies project maturity and strategic importance.
- Labelled projects are selected based on their alignment with **SNETP's three pillars**:

✅ **NUGENIA** (Generation II & III, LWR)
✅ **ESNII** (Fast systems w. closed cycles MSR/LFR/SFR)
✅ **NC2I** (Non-electric applications, heat, H2, HTR)

How to Get Your Project Labelled?

- **Submit your idea:** Use the SNETP Open Innovation Platform (SOIP) to propose a project. Open to all SNETP members.
- **Evaluation:** Experts review alignment with SNETP's strategic pillars (NUGENIA, ESNII, NC2I), maturity and innovation.
- **Label approval**: If selected, your project receives the SNETP Label, boosting visibility and giving access to the community of labelled projects.
- 📌 Ongoing Call: Submit anytime!

Benefits of SNETP Label

- **Roadmapping & joint programming**: Published Strategic Research & Innovation Agenda (2021) and upcoming Deployment Strategy (2025).
- **Supporting project creation process**: SNETP Open Innovation Platform (SOIP) to submit and label new R&D&I projects.
- **Scientific dissemination & communication support**: Regular updates via newsletters, social media, videos, articles and events.
- **Networking**: Annual SNETP Forum with 200+ participants and partnerships with key European initiatives.
- **Link with European policy makers**: Participation in SMR Alliance, SET Plan and other European policymaking efforts.

New! SNETP webinar series

- **Monthly Webinars:** Explore key Euratom projects and the SNETP Label.
- **Foster Collaboration:** Promoting networking and knowledge exchange on strategic research and innovation topics.
