

Who?

Why?

What?

Safe – Reliable – Affordable – CO₂ neutral electricity

Nuclear

- 1 power plant
- 1 hectare
- **485 MW** x 8,2
- **4.000 GWh**
- 1.300.000 households

Solar

- 62.000 panels
- 20 hectares
- **21 MW** x 1,2
- **25 GWh**
- 8.000 households

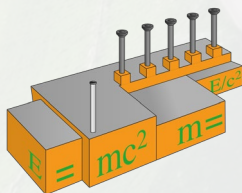

Wind

- 8 turbines
- 40 hectare s
- **33 MW** x 2,1
- **70 GWh**
- 23.000 households

Nuclear waste COVRA

All nuclear waste
of 60 years
electricity production.
Reduction of
120.000.000 tons CO₂

Ambitions

- Extended lifetime NPP Borssele 1 from 60 to 80 years
- Operator and license holder of (at least) 2 units > 1.000 MW in NL
- Operator and license holder of multiple SMR's at (industrial) sites
