## ENSREG is working to:

**Advise and enhance cooperation and transparency** on nuclear safety and radioactive waste.

## ENSREG Work Programme

1. Support the implementation of EU Directives on Nuclear Safety and on the Safety of Spent Fuel and Radioactive Waste
2. Stress Tests and National Action Plans (EU and 3<sup>rd</sup> countries)
3. Peer review missions:
  - Topical Peer Reviews (ENSREG)
  - IAEA missions (IRRS, ARTEMIS)
4. Openness, transparency, and communication activities

**ENSREG** is active through three **working groups**:

- **WG1** focuses on nuclear safety and international cooperation
- **WG2** on Waste Management and Decommissioning
- **WG3** on Transparency Arrangements

**ENSREG committed to ensuring the safety of nuclear reactors & WM**

## **ENSREG Program:**

### **Nuclear Safety**

- ☐ Regulatory Oversight and Updates on Safety Standards
- ☐ Focus on Safety Assessments for New Reactor Technologies
  - ENSREG Task-force on SMRs
- ☐ Advancing the European Safety Culture

### **Radioactive Waste Management**

- ☐ Long-Term Waste Management Solutions (*Research and Development*)
- ☐ Public Engagement and Communication
- ☐ International Cooperation

## Looking at the future

- ❑ **ENSREG will continue to play a leading role** in ensuring that nuclear safety is an overriding priority and that waste management strategies are both effective and sustainable
- ❑ **ENSREG is committed to collaborating with all stakeholders**, including regulators, industry, policymakers and civil society, to establish and sustain an strong safety framework
- ❑ The **cooperation is indicative of the strength of the international nuclear community** to achieve a safe and sustainable future
